

Product description:

The Bosch DDS181-02 18V 1/2" Drill/Driver is part of Bosch's new Compact Tough series of drills. The drills in this family feature a new design with a shorter, more compact head length (rear to front) which allows for better balance. When you add in a new high capacity battery, run time is improved. Performance has also been enhanced to -4 degrees and a built-in battery fuel gauge lets you know when you need to recharge. The DDS181-02 is also backwards compatible with older battery models.

Features & Benefits

- 4-Pole open frame motor – More power in a smaller size
- New ergonomic design – for outstanding comfort
- Durashield housing – constructed to withstand jobsite conditions
- Optional Flexible Power System (FPS™) provides choice of max run time or minimum weight
- Ratcheting single sleeve 1/2 in. chuck- for one handed bit changes
- LED light- Great for dark or enclosed areas
- Soft-Grip wrapped housing - Fits comfortably in hand for extended working time
- Variable speed trigger- Provides maximum control
- Bosch Lithium-ion HC batteries - Provides up to 50% more run time, cold weather performance in -4 deg temps, and fuel gauge.
- Bosch advanced Lithium-ion technology delivers optimized performance through Electronic Cell Protection (ECP™), unique pack design which keeps the battery cooler, and Electronic Motor Protection (EMP™) which protects motor in heavy duty applications.

Specifications

Voltage	18V
Charger	Fast Charger
Chuck Capacity	1/2" keyless chuck
Chuck Size	1/2"
Clutch Settings	18+1
Battery	(2) 18V High Capacity Lithium-ion SlimPack batteries
No Load RPM	0-500 / 0-1,700
Torque	600 in. lbs.

Viking Stock#s

BOS DDS18102

Includes: Compact Tough™ 1/2" Drill/Driver (DDS181-02), (2) 18V High Capacity Lithium-ion SlimPack batteries, Lithium-ion Battery Fast Charger, Double-sided Philips Drive Bit, Carrying Case
