

LIGHTING EFFICIENCY

PRESCRIPTIVE REBATES FOR LED LIGHTING NOW AVAILABLE!

We now offer prescriptive rebates for qualifying LED lighting, including retrofit and new construction applications.

LED lighting can be a cost-effective upgrade to your lighting system!

Recent technological advances have made LED lighting more affordable than ever, with improved functionality, quality and life expectancy. The chart below outlines the new LED rebates available.

LED Equipment	Retrofit Replacement	Retrofit Rebate	New Construction Rebate
LED Interior Lamp ≤5W	Incandescent or halogen lamp	\$20	\$20
LED Interior Lamp 6-10W	Incandescent or halogen lamp	\$22	\$22
LED Interior Lamp 11-20W	Incandescent or halogen lamp	\$35	\$35
LED Downlight Luminaire/ Fixture ≤25W	Incandescent or halogen fixture	\$100	\$50
LED Downlight Luminaire/ Fixture 26-50W	Incandescent or halogen fixture	\$125	\$75
LED Soffit or Canopy Fixture (exterior) 25 150W	Metal halide fixture	\$275	\$150
LED Refrigerated Cases	T12 or T8 fluorescent	\$100	\$70

Following are some additional details about the new LED lighting rebates:

- LED interior lamps and downlight luminaires/fixtures must be ENERGY STAR[®] qualified. The lists of ENERGY STAR qualified products are available at energystar.gov/SSLPartners. Lamps are listed under the section "Partner Resources for LED Lamps" and luminaires/ fixtures are listed under "Partner Resources for LED Fixtures."
- The ENERGY STAR list of qualified luminaires includes a variety of products. In order to qualify for the prescriptive rebates for LED downlight luminaires/fixtures, the product **must be listed as "Commercial" or "Both"** in the "Application" column of the ENERGY STAR product list. In addition, the product description in the "Product Type" column **must include the word "Downlight."**
- ENERGY STAR does not have a qualified products list for LED canopy or soffit lighting or LED refrigerated case lighting (therefore, an ENERGY STAR rating **is not** required for those specific prescriptive rebates).
- To be eligible for the prescriptive rebate for exterior LED canopy and soffit lights, **the customer must be replacing Metal Halide fixtures only.**
- Unfortunately, wall packs are neither canopy nor soffit fixtures and do not qualify for the prescriptive rebate.
- Invoices for prescriptive LED rebates must be dated on or after August 25, 2010.

For additional information, please refer to the updated rebate applications now available for retrofit and new construction projects at xcelenergy.com/LightingEfficiency.

Custom Projects

We also offer Custom Efficiency rebates for lighting measures not listed here, including signs, parking lots or garages, wallpacks, etc. **All Custom projects require preapproval prior to purchase and installation.**

Contact your account manager or an Energy Efficiency Specialist at **1-800-481-4700** or **energyefficiency@xcelenergy.com** if you have any questions about Lighting Efficiency rebates or any of our energy efficiency programs.

BENEFITS OF LED LIGHTING:

- ENERGY EFFICIENT
- LONG LIFE
- DIRECTIONAL LIGHTING
- COMPACT SIZE
- INSTANT ON
- DIMMABLE
- COLD TEMPERATURE OPERATION
- NO INFRARED OR ULTRAVIOLET EMISSIONS
